

HOW TO PLAY HIGH CARD FLUSH

In High Card Flush, the players and the dealer receive seven cards each. The dealer qualifies with a three card, nine high flush. The player's hand is made of the highest number of cards in a given suit.

To play against the dealer the player must make an Ante wager. After viewing their cards, to continue to play, the player must make a Raise wager up to three times their Ante if their hand is a six or seven card flush. If the hand is a five card flush, the player can place up to two times the Ante. If the hand is a two to four card flush, the player can place a Raise wager equal to the Ante. The hand with the highest number of cards of the same suit wins.

If the player's hand beats the dealer's, the Ante and Raise bets win even money; if the player ties, those bets push.

RANKING OF HANDS The highest hand is the hand with the highest number of cards in one suit, along with the highest ranking card if the dealer and player have the same number of flush cards. A straight flush holds no value other than the value of the individual cards. A straight flush does have value for the Straight Flush Bonus wager.

FLUSH BONUS The player wins on the Flush Bonus spot when they are dealt a 4 card flush or better. Players must place an Ante and Raise wager in order to play the Flush Bonus. The Flush Bonus winning wager is always paid, regardless of the dealer's hand.

Players Flush Hand	Payout Odds
7 suited cards	100 to 1
6 suited cards	20 to 1
5 suited cards	10 to 1
4 suited cards	2 to 1

STRAIGHT FLUSH BONUS The player wins on the Straight Flush Bonus spot when they are dealt a 3 card straight flush or better. The player must place an Ante and Raise wager in order to play the Straight Flush Bonus. The winning Straight Flush wager is always paid, regardless of the dealer's hand.

Players Straight Flush Hand	Payout Odds
7 suited cards in straight.....	500 to 1
6 suited cards in straight.....	200 to 1
5 suited cards in straight.....	100 to 1
4 suited cards in straight.....	50 to 1
3 suited cards in straight.....	9 to 1

MAXIMUM PAYOUT The maximum aggregate payout per player during any one round is \$35,000.

Side wagers are prohibited.

High Card Flush Progressive is an optional progressive bet. The bet considers the best hand possible among each individual player's cards.
