

GAME RULES

21 + 3 EXTREME

21 + 3 Extreme is an optional bonus wager that pays based on the poker value of three dealt cards, using the player's first two cards and the dealer's up card.

To begin each round a player must make their regular Blackjack wager in order to place a 21 + 3 Extreme wager. Once the players have two cards, the dealer settles 21 + 3 Extreme wagers. If players have a poker hand, the dealer pays according to the following pay table.

Player's Poker Hand	Payout Odds
Straight Flush.....	40 to 1
Three-of-a-Kind	30 to 1
Straight.....	10 to 1
Flush.....	5 to 1

The dealer then follows regular blackjack rules and procedures.

Side wagers are prohibited.

21 + 3 EXTREME EXCEPTIONS TO BLACKJACK

1. The 21 + 3 Extreme introduction is the same as for Blackjack, except that:
 - A. The 21 + 3 Extreme is an optional bonus bet for Blackjack that considers the first two cards the players receive and the dealer's up card.
 - B. The first three cards as described in A above pay bonus bets based on the poker hands of Straight Flush, 3-of-a-Kind, Straight, and Flush.
 - C. To begin each round, players make their regular blackjack wagers and optionally the 21 + 3 Extreme Wager.
 - D. Once the players have two cards, the dealer settles 21 + 3 Extreme wagers. If players have a poker hand, they are paid according to the pay table.
