

HOW TO PLAY ROULETTE

The Roulette Wheel has 38 numbers from 1 to 36, plus "0" and "00." The numbers are alternately colored red and black with the "0" and the "00" green.

Play begins when players have made most of their bets by placing chips on the numbered layout. The dealer then spins the white ball in the opposite direction of the spinning wheel.

Bets may be placed until the dealer calls "No more bets, please." The dealer places a marker called a "dollie" on the winning number and bets are paid accordingly. No bets may be placed or taken from the layout until the dollie is removed from the winning number.

Cheques, ranging in value, can be bought in stacks of 20 from the dealer. Each player determines what the cheques are worth when they buy-in and are given a color. Players can use either Roulette cheques or gaming chips.

Table minimums are posted at each Roulette table. Roulette cheques have no value at any other game, so it is important to cash them in before leaving.
